## **NOTES ABOUT** THE FIGHTERS

Boston, March 17 .- Joe Bowker, Engand's champion featherweight, is thanking his stars to-day that he was not knocked out by Al Delmont when not knocked out by Al Delmont when the two went 12 rounds here last night. Bowker was evidently a good fighter once but Delmont made him look a has-been. At times Bowker showed flashes of his old form but at no time Hartford. The scores: the two went 12 rounds here last night. Bowker was evidently a good fighter once but Delmont made him look a has-been. At times Bowker showed flashes of his old form but at no time did he look like a winner. That he was defeated decisively in the 11th round was a narrow escape for Delmont had put him to the mat three times and had him staggering when the bell saved him from being put away.

Bowker was tooled as being far clev-erer and shiftler than Driscoll or Moran but he does not compare with either of them in any way.

New York, March 17.—George Dennis of Boston was too light for L'ttle Joe Coster, but to-day he is hailed as the gamest little fellow in the ring. Desp'ic hard punishment administered by Coster, Dennis kept coming back and took his punishment without a wh'mper. For three rounds he was battered into an almost helpless condition when his second mercifully threw up the sponge.

New Orleans, March 17.—Young Donahue, of Boston, proved a surprise to Freddie Webb, the English fighter last night. The New Englander, by dint of taking punishment and science,

VI.-My Father's Conversion

Lightweight Champion of the World

HEN I had finished my fight with Charley Berry it was getting close on to Christmas, and it was up to me to hike back to Hegewisch. I am awful strong for Christmas at home, and that hanging up the stocking thing still has a hold on me. Every Christmas as regular as a clock I hang up my sock, and my good old mother never falls to see that Santa Claus

puts something in it. With \$50 in my pocket I reached Hegewisch two days before Christmas eve, and I had to get very busy, as all the kids were writing letters to Santa Claus and giving them to me to

On Christmas day my father called me into the little parlor and said he wanted to have a talk.

"Now, Bat," he began, and then he told me that he wanted me to stop the fighting business. "Before you leave home," he said, "you must promise."

Would Not Promise to Quit. I wouldn't exactly promise, but told him I would think it over. So we all went downtown. The crowd in Hegewisch usually hangs out at Dad Knight's bar. Just as we went in the door two fellows were having an argument. One of them was from Pullman, where they make the sleeping cars. In Hegewisch we have the largest car works in the world, but we only make working cars, such as flat cars, freight cars, etc.

The Pullman fellows think they have something on us because they make fancy cars, and there is always an argument about which is the better town.

"Maybe you do make the best cars," said the fellow from Hegewisch, "but you can't fight over there."

"Can't fight!" snapped the other fel-"What's tearing at you? Why, we've got the greatest fighter in the world at Pullman, and he can lick anything that ever growed in Hegewisch. I'd like to see you show some guy who could face little Frankie Colifer. Why, he's a whirlwind.'

"Get out." cried the Hegewisch man. "Hegewisch can beat anybody at anything, and I'll bet you on it." Just then he spied me and the old man as we came in the door.

"Say, kid." he said, "can't you lick any boy your weight in Pullman?" I "allowed as how" I was willing to

"You tink dey got boy over dere vot can beat my boy-vot!" my father flared up in his funny Danish dialect. "Vell, ve'd lack to see him. My boy bane a vonder." And the old man was

We boys had two weeks in which to get ready, and on Jan. 13, 1962, everybody in Hegewisch went over to West Pullman to see the go. The town was closed up. It was a general holiday.

I HANG UP MY SOCK.

We fought in an empty building adjoining Pete Kelley's saloon, and the bout was to have gone six rounds. This fellow Collfer was a pretty good fighter at that, but I remembered that I was battling for the honor of my home town, and I tore at him like a demon. The building was packed tion and had managed to win each so that it bulged out at the sides. On time with a knockout. The Ryan bout, one side the Pullman employees were according to the announcer, was to go pulling for their man, and on the other it seemed to me like all the Danes and round I sailed in and hooked him on Swedes in the world were pulling for the jaw several times, also using my with the Swedes by this time, and and down he went for the fatal ten they were working in perfect har-mony with us Danes. In the fifth round, while the Danes and Swedes were talking all sorts of languages and yelling for me to go on, I cracked Colifer in the stomach. My success in saving the fighting honor of Hegewisch appeared to take all the talk out of the old man about making me quit the game. From this time on he was a dyed in the wool fight fan.
